

## NEW BULGARIAN KING QUITS FOR PEASANTS

New Government Is Set Up Under  
Leadership of Stamboulsky, Re-  
cently Released From Prison.

COPENHAGEN, Nov. 2.—King Boris of Bulgaria, who ascended the throne in October 1918, has abdicated. A peasant government has been established at Sofia under the leadership of M. Stamboulsky, who has been the chief of the peasant and Agrarian movement for some time.

STAMBOULSKY, Nov. 2.—M. Stamboulsky, who is reported to be the head of the new government, has been released from prison.

## BROWN TELLS OF SURPRISING GAIN

Had Lost Rapidly For Many  
Months—Gained Twenty-  
Six Pounds, He Says.

"I am in better shape every day than I have been for many months and have gained twenty-six pounds in weight," said M. G. Brown, a well-known farmer living on a farm near Tulsa, Okla.

"When I began taking Tanlac I had been suffering for months with indigestion and other troubles," he continued. "My appetite went back on me and my stomach was in such a shape that everything I ate made me miserable. I could hardly sleep at night and I fell off in weight and strength until I hardly knew what to do. Nothing I tried helped me any and I was going down hill rapidly."

"The outlook is more favorable to me now! I started taking Tanlac a while back and it has helped me right from the start. I have taken five bottles so far and there's a world of difference in my feelings. I can sit down and eat as heartily as if I had never had a day's sickness. My nerves are as steady as a rock, I sleep like a log at night and have gained twenty-six pounds in weight and can do as big a day's work as anybody."

Tanlac is sold in Tulsa by Quaker Drug Company, Puritan Drug Company and by the leading druggists in practically every city, town and village in America.

## WAR GROUP KEEPS UP DECLINE OF EXCHANGE

Steel Goes to Almost Par—Mexican  
Petroleum Rallies 8 Points—Bills  
Break but Gain Before Closing.

NEW YORK, Nov. 2.—With United States steel selling down almost to par, Mexican petroleum and Royal Dutch and Texas company securities leading a rally, the war group today a brief but busy session of the stock market reflected a further division of speculative sentiment.

Rail shipments, copper and other shipping bearing little relation to peace or war broke 1 to 3 points, but failed rather easily than less advanced securities.

Mexican petroleum closed at a rally of 8 points and other leaders made variable recoveries steel ending at a small fractional loss. Foreign bonds and next week's October holidays contributed the short covering, but the tone at the close was irregular at best. Sales amounted to \$1,000,000.

The bank statement showed to a moderate extent the process of liquidation recommended by the local money committee, actual loans decreasing about \$14,000,000.

## LET US PREPARE FOR PEACE

LET'S not let up one dot in our prosecution of war, but like England, France and our own National Government, let us of Tulsa prepare for peace.

In buying more than \$20,000,000 worth of Liberty Bonds, we have laid the first firm foundation for Tulsa's return to a bigger, broader field of action when peace is declared and the boys come home.

Just think of this—before the war Tulsa's banking assets were around \$50,000,000. They are still at that point—yet the people of Tulsa have increased the future peace time bankable assets of Tulsa by more than \$20,000,000.

Tulsa has and will continue to be the financial oil center of the southwest.

Oklahoma zinc and coal industries are looking to Tulsa in an ever increasing way.

Tulsa is at the very door of a three-million-acre empire, the Osage, that has not yet passed the pioneer stage of development.

Tulsa county has near 100,000 acres of land subject to redemption from overflow.

Tulsa is at the very footstep of water power enough to turn the wheels of a city many times our present size.

Tulsa will, when peace comes, build concrete highways that will bring to our streets many people.

Tulsa's engineer soldiers, now in France, will return and take up once more the project of electric and steam railroad development which will link this city with vast new mineral and commercial fields.

When most of our 10,000 soldiers come back, and they will come back; when Tulsa can patriotically use its \$20,000,000 Liberty Bonds to add to present financial strength; Tulsa will have the man-power, the money, and the will.

Then Tulsa will build, not only the city, but the vast empire that surrounds the city.

In the meantime—we must all "carry on."
